*Stronger, Safer Florida*

Happy Holidays!

As we enter another exciting holiday season, I want to make sure Floridians are prepared with the latest consumer protection information to help ensure safe, joyful festivities.

My 2021 Holiday Consumer Protection Guide is designed to help inform Floridians by equipping them with consumer protection tips and product safety information. This season is a time of joy and charity, so it is important for consumers to remain vigilant against scams and watch out for recalled items while shopping for holiday gifts.

Our guide offers an array of information and useful tips for shoppers—including ways consumers can protect themselves when making online purchases and steps to take to avoid seasonal charity scams. It also includes a list of items recalled by the U.S. Consumer Products Safety Commission during the past year. To say the holidays are a busy time of year is an understatement, so for shoppers' convenience, we have compiled a list of recently recalled items that are particularly risky to children and teens in the following pages.

Shoppers are encouraged to use this guide to protect themselves and their wallets this holiday season. By watching out for faulty and recalled items, and staying on guard against consumer fraud, we can build a Stronger, Safer Florida.

Wishing you a safe and happy holiday season!

Sincerely,

## **Holiday Season Shopping Tips**

---

*With so many consumer purchases taking place during the holiday season, it is a good time to be particularly mindful of potential scams, security issues and added costs that may impact your online purchases. Below are tips to keep your money safe while making the most of holiday shopping.*

- ❖ When shopping online, it is often wise to pay with a credit card instead of a debit card, if possible. Both payment methods allow you to dispute a charge if the merchandise never arrives or is different from what was ordered; however, with a debit card, the purchase is already deducted from your bank account and it may take days or weeks for your bank to reverse the charge.
- ❖ When ordering online, ensure that the web browser has a secure connection before inputting or submitting payment information. In the address bar, a padlock should appear to signify that your session is secure.
- ❖ Keep your receipts and be sure you understand retailers' return policies and periods so you can return any unwanted items for a full refund.
- ❖ Some retailers offer layaway plans or other payment options to allow shoppers to pay for items in installments or at a later date. Before agreeing to such a plan, be sure to ask whether the retailer charges a fee for its program and whether payments and any fees are refundable if the purchase is canceled or returned.
- ❖ When purchasing gift cards, check whether there is an additional activation fee, and provide the activation receipt to the recipient. Additionally, consider the retailer's financial situation before buying a gift card. If the retailer closes or declares bankruptcy, the recipient may not be able to enjoy the card's value.
- ❖ If shopping with a new retailer, check with the Better Business Bureau at [BBB.org](https://www.bbb.org) to determine whether other customers have filed complaints against them.

## Tips for Charitable Giving

---

*While the holiday season is a time for kind and generous deeds, scam artists may seek to take advantage of this spirit of giving. Below are tips to help ensure your charitable dollars do the most good this season.*

- ❖ Research before donating to a charity. Know if a charity is registered to solicit in Florida, be aware of how much your donation will actually go towards charitable programs as opposed to administrative expenses and check others' feedback on the charity. Websites like [FDACS.gov/ConsumerServices](https://www.fdacs.gov/ConsumerServices), [Guidestar.org](https://www.guidestar.org) and [CharityNavigator.org](https://www.charitynavigator.org) allow potential donors to review charities to help make sure the donation doesn't go to a scam organization.
- ❖ Do not provide credit card numbers or bank account information to someone who has called or emailed you unsolicited. Interested in donating to a charity that has contacted you? Ask them to mail information about the charity and a pledge form. Legitimate charities should have no problem with this request.
- ❖ Watch out for similar sounding charities. It is not unusual for sham charities to choose names that sound like the names of legitimate, well-known charities.
- ❖ Know the difference between tax exempt and tax deductible. An organization that is tax exempt does not have to pay taxes, but this does not necessarily mean that a contribution you have made to it is tax deductible. To check whether an organization is eligible to receive tax-deductible contributions, visit [Apps.IRS.gov/App/Eos/](https://apps.irs.gov/app/eos/).

## Product Recalls

---

*During this season of joy and giving, it is important to remain vigilant about the safety of the products brought into your home. What follows is a compilation of 2020-2021 U.S. product recalls in an easy-to-use guide that can be used to consult as you give and receive items this holiday season.*

This guide reproduces U.S. Consumer Product Safety Commission information and details about recalled toys, baby items, sporting and recreational goods, furniture, and household products that are either designed for, or pose a particular risk to, children and teenagers. These items were among the more than 200 products recalled by the U.S. Consumer Product Safety Commission between October 1, 2020, and October 5, 2021. For more information regarding these products or for a comprehensive list of all product recalls, please visit [CPSC.gov](https://www.cpsc.gov).

Dangerous and defective products are the subject of recalls every year. When a product is recalled, the law requires manufacturers and retailers to remove the products from their shelves. However, products subject to recall sometimes slip by undetected and remain in stores; others may have been purchased before a recall was ever issued. Additionally, many products often continue to be offered for sale through online reseller websites well after a recall has been announced. Therefore, it is always important to do your research to make sure that the products you are buying are safe and free of defect.

Taking a few minutes now to peruse this collection of recalled items will ensure a safer and more enjoyable holiday season.
